

**Your Top Shop: If you've got a convertible body, we've got a superior top!**

### 1932 Phaeton by Gerald & Sons Restoration

“A basket case of pieces” is how Superior Car Parts Inc’s long-term customer Gerald Hochstetler described his latest restoration project: a 1932 Phaeton. He purchased the ‘32 USA made 4-door Phaeton on eBay from a man in California. “Because it was extremely rare, my son and I knew it was a diamond in the rough.” So with much determination and “a show-quality dream,” Gerald and his son Branden completed the project in four months.

“To look at it now, it’s unreal,” SCPI’s Ron Grace said after seeing the photographs of the finished Phaeton. He and SCPI’s Tim McGinnis had seen the “basket case of pieces” when they visited Gerald at his shop in Napanee, IN, in July 2009. Ron and Tim provided Gerald with personal one-on-one service when it came to restoring the Phaeton top. Several phone conversations later, SCPI had handcrafted the specific components Gerald needed for the restored top.

Visit [www.geraldandsonsrestorations.com](http://www.geraldandsonsrestorations.com) for more photos and information about Gerald’s story and his projects. We’re happy to have been involved again in his latest project . . . we’ve been working with Gerald since 1987. Enjoy the ride, Gerald!

*Tim and Ron share their experience of working with Gerald and finally meeting him last July in Napanee, IN. Watch the video on Facebook and YouTube/superiorcarpartsinc.*
