

Your Top Shop: If you've got an open-air body, we've got a superior top!

Introducing the Superior Car Parts Inc top for the Davviki Ltd 1937 Wild Rod: From hard top to folding soft top

At SCPI we strive to bring cruising "topless" without the worry of rainy weather yet not sacrificing the roadster look.

Ron Grace, SCPI head engineer and designer, has done it again, creating a new folding top for a 1937 Wild Rod after the owner requested: "Give it a folding top with the roadster look."

Dave Gosset of Davviki Ltd Street Rods (www.davviki.com), a longtime customer of SCPI, recently delivered the 1937 Wild Rod to our shop. Nothing like another challenge for Ron. After 23 years in the business, he steps up to the plate every time designing a customer's wishes.

Stay tuned as SCPI will be able to offer the top to Wild Rod owners.

Top: *Wild Rod with the standard removable fiberglass top.*

Bottom: *Folding top design in final stages of construction.*
